## HIC and PIT Deadline Extended to Fri 5/10!

The HIC and PIT deadline has been extended for all CoCs. The new deadline is Friday 5/10 at 8 PM ET. For a running list of known and resolved issues, please check <https://hudhdx2infoissues.weebly.com/>.

Date of PIT Count: February 26, 2024

Save Record

Discard Changes

Type of Count Conducted This Year: Both sheltered and unsheltered

Sheltered Population

Sheltered Change

Unsheltered Population

Unsheltered Change

1. What data source(s) was used to produce the total number of people included in the sheltered population (staying in an emergency shelter, Safe Haven, or transitional housing) on the night of the count? Please indicate the percentage of the PIT count derived from each of the sources. (If a source was not used, please enter zero).

HMIS Data	<input type="text" value="100"/>
Provider-level surveys	<input type="text" value="0"/>
Client-level surveys	<input type="text" value="0"/>
Observation	<input type="text" value="0"/>
Other	<input type="text" value="0"/>
Total	<input type="text" value="100"/> %

2. Was the CoC able to collect information about the number of people being sheltered on the night of the count from all emergency shelters, Safe Havens, and transitional housing projects listed on the HIC or only some?

- Complete census count
- Random sample and extrapolation
- Non-random sample and extrapolation

3. What information or method(s) was used to de-duplicate the count of the total number of people included in the sheltered population? (Check all that apply)

- Comparison of personally identifying information (PII), such as name, date of birth, and Social Security Number
- Comparison of unique client identifiers (not PII)
- Blitz count of persons in shelters (i.e., count occurred at same time to avoid double counting)
- Interview/survey question(s) with screening questions (e.g., have you already completed a count survey)
- No specific approach was used
- Other (specify):

Unsheltered Population

Unsheltered Change

4. Looking at the change in your sheltered count from last year's count, please choose the three reasons you believe best explains these changes from the drop-down list below

- Change in PIT count methodology
- Change in PIT participation of programs serving general homeless populations (e.g., singles, families)
- Change in PIT participation of programs serving subpopulations (e.g., veterans, youth)
- Change in PIT count training
- Change in number of volunteers for PIT count
- Change in awareness of PIT count and relevant resources
- Change in CoC geographic coverage area
- Change in emergency shelter capacity
- Change in transitional housing capacity
- Change in rapid re-housing capacity
- Change in homelessness prevention capacity
- Change in permanent supportive housing capacity
- Change in other supportive housing subsidy capacity
- Change in landlord partnerships
- Impact of coordinated entry
- Impact of Housing First practices
- Change in availability of affordable housing
- Change in economic conditions (employment rate, etc.)
- Change in weather-related conditions
- Change in capacity due to COVID-19
- Change in participation of programs due to COVID-19
- Other (specify):

Please provide a summary description of the selected factors and how they impacted PIT count implementation (3,000 character limit):

Change in ES capacity-While the quantity of ES beds did not change drastically, a new facility was opened up that consolidated 2 ES facilities into one with an emphasis on low barrier shelter practices and new services that allowed space for storage of items as well as a safe place to stay throughout the day. This new shelter also improved the quality and timeliness of shelter data being provided resulting in a more accurate count. Change in TH capacity-The largest change in our sheltered count is due to the opening of a hotel voucher shelter program. This include larger families and clients with criminal backgrounds that often serve as a barrier to entering other programs. Change in RRH capacity-Due to staffing challenges and organizational capacity for our largest rapid rehousing provider for singles, the number of households being served in RRH was lower at the time of the count than most months prior to count. This led to a higher number of people being in shelter also.

Unsheltered Change

5. What approach(es) was used to count the total number of people included in the unsheltered population during the PIT count? (select all that apply)

"Night of the count" - census

5a1. Did you cover the entire geography of your CoC during the night of the count?

Yes

No

5a1a. What were the reasons you were unable to cover the entire geography (select all that apply)?

volunteer/staff capacity

weather conditions limited access to areas

did not include uninhabitable areas

did not include gated communities or other inaccessible areas of the CoC

Other (please specify):

"Night of the count" - known locations only

Night of the count" - random or stratified random sample

Service-based count

Administrative data

6. Were certain areas within the CoC geography specifically excluded because the CoC had reason to believe there were no unsheltered people in those areas based on prior knowledge/experience?

Yes

No

Other (please specify):

7. Did the CoC adjust the information in some way (e.g., statistical adjustment or extrapolation) to account for areas within the CoC geography that were not canvassed but where unsheltered people might have been on the night of the PIT count?

Yes

No

8. Were certain areas within the CoC geography specifically excluded because of concerns related to public health and safety?

Yes

No

9. What information or method(s) was used to de-duplicate the total count of people in the unsheltered population? (Check all that apply)

Comparison of personally identifying information (PII), such as name, date of birth, and Social Security Number

Comparison of unique client identifiers (not PII)

Blitz count of unsheltered people (i.e., canvassing of different areas occurred at same time to avoid double counting)

Interview/survey question(s) with screening questions (e.g., have you already completed a count survey)

No specific approach was used

Other (specify):

10. Looking at the change in your unsheltered count from last year's count, please choose up to three reasons that best explain these changes from the drop down list below. Please also provide a brief description of these specific factors (3,000 character limit).

- Change in basic PIT count approach (e.g., switched from census to sample, the addition or removal of an observation element or service-based sites/events, a change in sampling method such as the addition of an extrapolation element, or a change in the use of HMIS or other datasets)
- Change in implementing the PIT count (Select all that apply)
- Change in capacity (e.g., increase or decrease in beds/units available, more or less funding available for project type, more staff in prevention programs, fewer beds available due to COVID-19 social distancing protocols)

Please provide a brief description of these specific factors and how these changes affected PIT count implementation (3,000 character limit):

Street outreach has been a strategic emphasis for our CoC over the past 12 months with the goal of developing a by-names list that is maintained frequently. New relationships have been developed with volunteer outreach groups and additional street outreach staff have been hired in our CoC. These outreach efforts collaborate through the Heartland Continuum of Care Street Outreach Task Groups to case conference individuals who are unsheltered and to map locations that should be visited by outreach personnel. These efforts provided information that helped conduct the count and the relationships developed by outreach staff and volunteers helped in getting PIT assessments completed.

- Change in participation of partners and programs (e.g., increased PIT count participation from programs that serve youth or other populations, change in participation of programs due to COVID-19 restrictions)
- Change due to policy implementation (e.g., implemented new coordinated entry system, increased oversight of Housing First practices, established partnerships with multiple new landlords)
- Change due to natural factors (Select all that apply)
  - Weather was considerably different than the last count (e.g., unseasonably hotter, colder, snowing more than usual, heavy rains)
  - Impact of natural disaster (e.g., flood, hurricane, tornado, wildfires)
  - Impact of public health crisis (e.g., COVID-19 pandemic, Monkeypox outbreak)

Please provide a brief description of these specific factors and how these changes affected PIT count implementation (3,000 character limit):

Due to inclement weather on the night of our scheduled PIT count in January, we conducted the count on Feb 26th, 2024. The weather was unseasonably high on the date of the count with temps reaching 76 degrees which was a contributing factor in the number of people who were unsheltered during that count.

- Other (specify):

## HIC and PIT Deadline Extended to Fri 5/10!

The HIC and PIT deadline has been extended for all CoCs. The new deadline is Friday 5/10 at 8 PM ET. For a running list of known and resolved issues, please check <https://hudhdx2infoissues.weebly.com/>.

Flag ID	Flag Type	Flag Description	Flag Latest Comment	Page	Tab	View
260	Warning	Typically, we expect the number of Unaccompanied Youth 18-24 in Emergency Shelters (24) to equal the number of Persons 18-24 in households without children in Emergency Shelters (25). Please verify these numbers, and if they are correct, please explain the discrepancy in the Notes.	This is due to a household that consist of a father and son however the son is an adult. I did not list the household as a 'Male single parent' because that only applies to having children under 18. This household is listed as 'Other' and the 20 yr old is NOT unaccompanied. They are in a ES Hotel voucher project.	Youth	Unaccompanied	<a href="#">View</a>
502	Warning	There is more than a 50% decrease in the number of sheltered persons compared to last year. Please provide an explanation for this warning before submitting this count	This is a HDX error as last year our numbers were 76 less than this year. We had 90 more is ES and 14 less in TH.	All	Totals	<a href="#">View</a>
503	Warning	There is more than a 100% increase in the total number of chronically homeless persons compared to last year. Please provide an explanation for this warning before submitting this count	Heartland Continuum of Care (HCoC) partners have placed an emphasis of attaining more data and improving the quality of our data to ensure a more accurate understanding of homelessness in Sangamon County. A key area for improvement has been identifying people experiencing unsheltered homelessness who do not access services at organizations that utilize our Homeless Management Information System. Additionally, our Coordinated Entry Case Conferencing Committee has increased efforts to update the length of time homeless metric to reflect the change to chronic homeless status for households who have yet to access a housing opportunity. Added staff capacity for our CoC Lead Agency has helped to ensure these efforts continue to grow and move forward.	All	Totals	<a href="#">View</a>
505	Warning	There is more than a 100% increase in the number of sheltered chronically homeless persons (Emergency Shelters + Safe Havens) compared to last year. Please provide an explanation for this warning before submitting this count	Heartland Continuum of Care (HCoC) partners have placed an emphasis of attaining more data and improving the quality of our data to ensure a more accurate understanding of homelessness in Sangamon County. A key area for improvement has been stronger street outreach to help connect households who are unsheltered to available shelter resources. Emergency Shelter capacity was improved at the time of this count due to a new shelter facility that opened in early 2024 and a newly developed hotel voucher program. Additionally, our Coordinated Entry Case Conferencing Committee has increased efforts to update the length of time homeless metric to reflect the change to chronic homeless status for households who have yet to access a housing opportunity. Added staff capacity for our CoC Lead Agency has helped to ensure these efforts continue to grow and move forward.	All	Totals	<a href="#">View</a>
